

HOW TO TIE A

# HALF WINDSOR

1. Start with the broad end about 12 inches below the narrow end. Cross the broad end over the narrow end.
2. Turn the broad end back underneath the narrow end.
3. Then bring the broad end up.
4. Pull the broad end through the loop around your neck and to the right.
5. Bring the wide end around front, over the narrow end.
6. Again, bring the broad end up and through the loop around your neck.
7. Hold the front knot loosely and bring the broad end down through the front loop.
8. Lastly, tighten the knot carefully and slide it up to the collar.
